Garment Sizing & Measuring Guide

To ensure the best and optimal comfort, it is very important to take garment measurements properly. It is always best to have someone else take the measurements for you during your sizing session.

Always wear thin, lightweight clothing and shoes that will be typically worn with the uniform to your sizing session. Balfurd always provides pre-laundered garments to ensure accuracy. If you feel that you are between sizes, order the larger of the two for a more comfortable fit.
